

Sweet Fitness
Stevia

- Zero calorie sweetener, from Stevia plant.
- 100 % Natural, Nothing artificial, Tastes like sugar.
- Heat stable.
- No bitter after taste.
- Zero glycemic index (doesn't raise blood sugar level).
- Suitable for diabetic patients .

Stevia Sweet Fitness

Stevia sweet fitness is a zero-calorie sweetener , it tastes similar to sugar with no bitter aftertaste. It is made of Erythritol (%100 natural carrier that is found naturally in various fruits) and Steviol Glycosides (a high purity stevia leaf extract). It is suitable for diabetics (because it has no effect on the glycemic index) and helps maintain a healthy lifestyle

Innovation – crystallization process

Thanks to our partner manufacturing process, both ingredients are fused into one crystal, bringing to the product a %100 natural and homogeneous flavor. This is achieved without using artificial flavors or adding masking agents.
