Dear Sir,

It's my great pleasure to send my greetings and extend my highest recognition to your Excellency.

For more than **20 years**, “**The Egyptian Chamber of Information Technology & Telecommunications (CIT)**” a non-profitable governmental organization affiliated to the Federation of Egyptian Industries (FEI), is recognized as one of the key players in the ICT sector in Egypt, the leader of the digital transformation specially in the industrial sector, in addition to its key role in liaising between the Egyptian ICT companies in different industries and the Ministry of Communications and Information Technology (MCIT) in Egypt.

**CIT** gathers under its umbrella more than 8500 companies as members, representing different categories including the ICT industry pioneers, MSMEs, start-ups and Entrepreneurs from international, national and local companies, in addition to mobile operator companies in Egypt.

The Chamber's strategy focuses on enhancing Egypt's position in the global ICT map, through adopting programs and initiatives under the main pillars of Innovation & Entrepreneurship, Business Development and Local & International Market penetration. CIT is also keen to avail mutual business opportunities for its member companies in local & international markets, especially with the neighbor African companies, as of course supporting the mutual economic cooperation with African countries is a “top priority” for the Egyptian government to achieve sustainable development in the African continent, encourage foreign investments and help unlock the huge potential of mutual cooperation with African companies through various multilateral trade agreements and economic cooperation platforms that enhance partnerships.

**In this regard, CIT cordially invites your Excellency to join our main annual Conference “Digital Nation” and share with us your experience in this field As a GUEST SPEAKER.**

**وطن رقمي Digital Nation**

**“The Era of Digital Transformation”**

in its 7<sup>th</sup> Round under the auspices of His Excellency

Dr. Amr Talaat

The Minister of Communications and Information Technology

From 19 to 20 June 2022

InterContinental Citystars Hotel, Nasr city – Cairo

This Conference is the main annual event of the chamber that gathers national & international partners in the ICT sector, and this year the event will be an “Exceptional Edition” after 2 years of suspending due to COVID-19 pandemic.

**So CIT would like to invite your esteemed organization/Federation to be one of our Partners and Invite the interested member companies from your side to work with the Egyptian ICT companies to participate in the exhibition**

**Your participation is highly regarded to demonstrate the cooperation, development of ICT sector between both-side Companies.**

This will also shed light on the presidential Initiative “Africa for Digital Creativity” initiated by His Excellency President “Abdel Fattah El Sisi” and directed to the government to expand digital cooperation with African countries throughout encouraging the Egyptian Information Technology (ICT) companies to cooperate with their African counterparts for building integrated digital systems.

For more details about the conference and attendees’ profile, please check the attached presentation.

On our Last version of the conference, the event drew 3800 visitors and participation in the exhibition was from different industries.
